

Subs Needed

We are in need of substitute teachers. If this is something that would interest you, please contact Mrs. Baki in the office to be placed on our list. Subs must be certified teachers or have a valid substitute teaching license. Thank you in advance.

Box Tops

We will once again be collecting box tops. You will find them on many common food items. Please begin to save them for us. We do periodic contests to promote participation and ultimately to make more money that we can use for our school.

Attention Crafters

St. Anne's Society of Holy Angels Church is hosting a Christmas Cookie and Craft Fair on Sunday, December 6. If you are interested in joining them contact Julie Lano at 630-585-8174 or julielano@sbcglobal.net.

ECHOES OF ANGELS

STEM is Coming!

STEM refers to the areas of Science, Technology, Engineering and Mathematics. By 2018, projections estimate there will be a need for 8.65 million workers in STEM-related jobs. Unfortunately, the demand for workers far exceeds the projected pool of qualified candidates. STEM is a curriculum based on the idea of educating students in these four specific disciplines. However, they are not taught in isolation. STEM is an interdisciplinary and applied approach. It teaches students computational thinking and focuses on the real world applications of problem solving. President Obama said that "STEM is more than a school subject, or the periodic table, or the properties of waves. It is an approach to the

Rosary to Host Internet Safety Presentation

Learn how to keep your children and teens safe online at an internet safety presentation at Rosary High School tonight at 6:45. The presenter will be Special Agent Marc Bowers of Project iGuardian, a national cyber safety campaign that helps kids, teens, and parents be smart about online safety. The event is for parents only.

Football Invitation

In the office are invitations for boys (5th-8th) to attend tomorrow night's football game at Marmion. With a completed flyer they can also receive a hotdog and a drink at the concession stand. We also have flyers for the game on October 23. Please have your son see Mrs. Baki if they are interested.

world, a critical way to understand and explore and engage with the world, and then have the capacity to change that world..."

We are thrilled to announce that through the generous support of the Dunham Foundation, Holy Angels students will be offered this opportunity "to change the world" in the upcoming school year. Through the hard work and commitment by Mrs. Adrienne Gilla, Mrs. Becky Barr, and Mrs. Julie Smith, we will be receiving a nearly \$200,000 grant to bring a STEM curriculum to our school. This enhancement to our educational foundation will give our students the skills to be true leaders of the future.

We will be using the funds to purchase the STEMscope curriculum, technology, and professional development to show students how the scientific method can be applied to everyday life within a blended learning environment. The goal is to pique students' interest into them wanting to pursue a math and science path in high school and beyond.

This is an exciting opportunity for us. Please join me in thanking Mrs. Gilla and Mrs. Barr for their successful award of this grant for our school.

Boosterthon Fun Run

Monday is the big day! Our second Boosterthon kicks off with a school pep rally. Look for information on how to register your child as well as how to promote pledges coming home on Monday.

Next Week

Monday -

Tuesday -

Wednesday - Room mom meeting 2:00

Thursday -

Friday - Mass 8:15, Hot lunch
